The End of Days IV *Appropriately Employing Eschatology"*

Luke 21:5-36

September 2, 2018

GETTING TO KNOW ME

What view of eschatology have you been taught in the past?

Do you still hold to that same view or have your beliefs changed in any way? If so, how and why?

INTO THE BIBLE

What scriptures(s) would you personally share with someone who claims to know a particular date when Jesus will be returning?

What scripture(s) could you share with someone who believes that it would be impossible for Jesus to return today?

As you consider the inevitable end of this world, what kind of impact should passages like **Romans 13:11-14** and **2 Peter 3:11-14** have on the way you live on a daily basis?

When you consider the mission and behavior of Jesus at His first coming, what contrasting attributes are revealed to us in Revelation 19:11-16 that might give us a fuller picture of His character and/or attributes?

APPLICATION

What should be our attitude toward those believers who do not share our view of eschatology?

If you were to change your current view on the order of events of eschatology, is there any other popular view that you might be tempted to lean toward? What are the strengths of such a view in comparison with your present view?
