

HOPE GROUP

STUDY & DISCUSSION GUIDE

July 28th, 2019

GETTING TO KNOW ME

Do you think a church should have a targeted evangelism strategy?

If so, what details should such a strategy include?

In your own words, describe why a church should have a clear process through which to grow people to maturity?

INTO THE BIBLE

What scriptural examples might we be able to point to that warn us of what happens to a group of people when they do not have a clear vision?

What scriptures might we turn to which give us the authority to changeup the way we present the gospel depending on who we minister to?

APPLICATION

How does a church without a vision prioritize how it spends money and how it plans for the future?

What tends to be the default priority or driving force in the absence of vision?

How should New Hope's vision impact the decisions we make at present?

Give some examples of the above.
